

Retail Local Grocery App – UI/UX Design Project Report

1. Project Title

Retail Local Grocery App – Mobile UI/UX Design

2. Introduction

The Retail Local Grocery App is a mobile application designed to simplify the grocery shopping experience for users. The application allows customers to browse products, apply filters, add products to the cart, complete checkout, and manage their profiles. The project focuses on creating an intuitive, user-friendly, and visually appealing shopping experience.

3. Problem Statement

Many local grocery stores lack modern digital platforms that provide convenient online shopping experiences. Customers often face difficulties in searching products, comparing options, and placing orders efficiently.

The objective of this project is to design a user-friendly mobile application that enables customers to purchase groceries quickly and conveniently.

4. Project Objectives

- Design a clean and modern grocery shopping interface.
 - Improve user experience through simple navigation.
 - Provide easy product discovery and filtering options.
 - Create a smooth checkout process.
 - Develop a complete shopping journey from login to order confirmation.
-

5. Tools Used

- Figma (UI/UX Design)
- GitHub (Project Repository)

- Google Fonts (Typography)

6. Design Process

Research

Studied popular grocery applications and analyzed common user behaviors.

Wireframing

Created low-fidelity layouts to plan screen structure and navigation flow.

UI Design

Designed high-fidelity screens using a consistent color palette, typography, and spacing system.

Prototyping

Connected screens using interactive navigation in Figma to simulate the user journey.

7. Screens Designed

Splash Screen

Introduces the application and brand identity.

Fig1. Splash Screen

Login Screen

Allows users to access their accounts securely.

A mobile app login screen. At the top, the status bar shows the time 9:41 and signal, Wi-Fi, and battery icons. Below is a back arrow. The main heading is 'WELCOME BACK!' in bold, followed by the subtitle 'Login to continue'. There are two input fields: 'Email Address' with the placeholder 'Enter your email' and 'Password' with the placeholder 'Enter your password' and an eye icon for toggling visibility. A link 'Forgot Password?' is below the password field. A large green 'LOGIN' button is centered. Below it, the text 'Or continue with' is followed by two buttons: 'Google' with the Google logo and 'Facebook' with the Facebook logo. At the bottom, a link says 'Don't have an account? Sign Up'.

Fig 2. Login Screen

Home Screen

Displays search functionality, categories, featured products, and promotional offers.

Fig 3. Home Screen

Product Listing Screen

Shows available products in a structured layout.

Fig 3. Product Listing Screen

Filter Screen

Allows users to filter products by category, price, brand, and rating.

Fig 4. Filter Screen

Product Details Screen

Displays detailed product information, price, quantity, and add-to-cart functionality.

Fig 5. Product Details Screen

Cart Screen

Shows selected products, savings, coupon section, and order summary.

Fig 6. Cart Screen

Checkout Screen

Allows users to confirm address, choose payment method, and review order details.

10. Key Features

- Product Search
 - Product Categories
 - Product Filters
 - Product Details
 - Shopping Cart
 - Coupon Support
 - Order Summary
 - Multiple Payment Methods
 - Profile Management
 - Order Confirmation
-

11. Challenges Faced

- Maintaining visual consistency across screens.
 - Designing an intuitive checkout flow.
 - Organizing product information effectively.
 - Creating a clean and user-friendly layout.
-

12. Conclusion

The Retail Local Grocery App successfully demonstrates a complete grocery shopping experience through a modern and user-centered interface. The project emphasizes usability, accessibility, and efficient navigation, resulting in a smooth shopping journey from product discovery to order confirmation.

13. Future Improvements

- Real-time order tracking
- Wishlist functionality
- Product reviews and ratings
- Dark mode support

- Personalized recommendations
- Multi-language support
